

EXPLORER® 727

QUICK GUIDE

ACCESS THE INTERNET

To access the Internet, do as follows:

1. Connect the LAN cable between your computer and the EXPLORER terminal.
2. Start up your computer.
3. Open your browser or email program.

For further information on the terminal, see the EXPLORER 727 user manual.

For further information on the Thrane & Thrane IP handset, see the IP handset user manual.

MAKE A VOICE CALL

To make a call from your EXPLORER 727 terminal, dial

00 <country code> <phone number> #

Example: Thrane & Thrane A/S in Denmark:

00 45 39558800 #

NOTE: There are two audio qualities for voice: Standard voice and 3.1 kHz Audio.

To force the call to use Standard voice, dial **1*** before the number.

To force the call to use 3.1 kHz Audio, dial **2*** before the number.

To make a call to the terminal, dial **+870 <mobile number>**

NOTE: There are two mobile numbers for voice, one for 3.1 kHz Audio and one for Standard voice.

MAKE A LOCAL CALL

You can make local calls between phones connected to the same terminal.

To make a local call to an IP handset, dial the number of the IP handset (e.g. **0501**) followed by **#**.

To make a local call to an ISDN phone, dial **0401** or **0402** followed by **#**.

To make a local call to an analog phone, dial **0301** or **0302** followed by **#**.

For information on allocation of local numbers, refer to the User Manual.

SEND A FAX

To send a fax from the Phone/Fax interface of the terminal, dial

2* 00 <country code> <phone number> #

Example: Thrane & Thrane A/S in Denmark:

2* 00 45 39558888 #

"2*" forces the connection to use 3.1 kHz Audio. The connection uses Standard Audio by default.

When using the ISDN interface, dial **3*** before the number to force the connection to use UDI.

To send a fax to the terminal, dial

+870 <3.1 kHz Audio mobile number>

Alternatively you can send a fax directly from your browser, using a "web fax" feature provided by an electronic fax provider.
