

# **Reset to Factory Defaults**

- For all Nera WorldPro users
- Resetting of the Nera WorldPro terminal
- Light reset
- Heavy reset

### **Table of Contents**

1.	GENERAL	.2
1.1	Light reset : " 123456 "	.2
1.2	Heavy reset : " 9998"	.2
2.	HOW TO RESET USING NERA WORLDSET	.2
3.	HOW TO RESET USING BGAN LAUNCHPAD	. 3
4.	FOR SUPPORT	. 3

## 1. GENERAL

Reset to Factory defaults is available via BGAN LaunchPad or Nera WorldSet,

- 1. Light Factory reset, for ports settings and terminal configuration
- 2. Heavy which erase every thing including GPS position. phonebook, sms etc.

#### 1.1 Light reset : " 123456 "

By enterning Security Code "123456" ... port configuration, QoS settings and terminal settings will be set to default values again. The configuration values will be set as for a new terminal.

#### 1.2 Heavy reset : " 9998"

By entering "9998" absolutely ALL data will be erased, GPS position, SMS, Phone Book, all Logs etc etc..... This reset sets configuration values as for a new terminal, and erases all personal information and data logs.

#### 2. HOW TO RESET USING NERA WORLDSET

- 1. From WorldSet Menu "6. Terminal Settings"
- 2. Scroll down to "7 Master Reset"
- 3. Press "Select"
- 4. The handset will ask for a Passkey for master reset. This is the same code as the Security Code in BGAN LaunchPad.
- 5. Enter the Passkey, press "Enter" and wait a moment.
- 6. Terminal will be switched off automatically.
- 7. Restart terminal.
