

## **IRIDIUM PHONE - TWO STAGE DIALING**

### **What is two stage Dialing?**

- The Two-Stage Dialing Platform (PSTN originated dialing) was developed to allow callers the ability to call an Iridium subscriber.
- The calling party dials an Arizona USA number (+1.480.768.2500) This connects the caller to Iridium's Two-Stage Dialing platform located in the Tempe, Arizona
- Using automated voice prompts, the calling party enters the Iridium subscriber's phone number (8816.....) The system will identify the IRIDIUM subscriber and put the call through to the phone. If the customer is not available, through voice prompts the caller will have the option to leave either a numeric or voice mail message.

*The voice prompts on this platform are in the English language only.*

### **How is the two-stage platform priced?**

- The calling party is charged long distance rates from their origination point to Iridium's Two-Stage Dialing Platform in the Tempe Gateway through their own LD carrier
- The Iridium Customer is charged his regular ISU-ISU rates rates for the call.

### **How does this appear on my invoice?**

- The calling party will receive an invoice from their long distance company reflecting a long distance call to Tempe Arizona
- The Iridium customer will view this call as an ISU-ISU call on the ir invoice.
