## TracPhone® HTS Network Communications Systems

The high-speed revolution in marine communications

**TracPhone V11<sub>HTS</sub>**  
1.1 m Ku/C-band antenna  
20/3 Mbps (down/up)<sup>1</sup>

**TracPhone V7<sub>HTS</sub>**  
60 cm Ku-band antenna  
10/3 Mbps (down/up)<sup>1</sup>

## Keeping you connected at sea with **high speed and expanded coverage**

Travel the seas with confidence and blazing fast connectivity with a TracPhone HTS network satellite communications system from KVH. Powered by our high-speed worldwide network and providing extended global coverage, the TracPhone V7<sub>HTS</sub> and TracPhone V11<sub>HTS</sub> each offer KVH's latest advances in marine communications and performance to deliver everything you want in a single package:

### Blazing Speeds

High-speed data channel perfect for things like video chat, social media, video and music streaming, web browsing, and more

### Unlimited Use

An unlimited use data channel offering a variety of speed-based plans for email, messaging, IoT, and more (TracPhone V7<sub>HTS</sub> and V11<sub>HTS</sub> only)

### Affordable Pricing

New, flexible airtime options to fit the needs of every size or type of yacht

**Brought to you by the No. 1 maritime VSAT network<sup>2</sup> – KVH mini-VSAT Broadband<sup>SM</sup>**

### High-speed, dual-channel systems

TracPhone V7<sub>HTS</sub> and V11<sub>HTS</sub> each offer unmatched speed using new next-generation, high-throughput satellites (HTS) from Intelsat and additional capacity from SKY Perfect JSAT, all integrated within the Intelsat FlexMaritime platform. The unique dual-channel configuration provides both high-speed and unlimited use data channels to best meet the needs of you and your guests.

### Premium equipment and seamless global coverage

These state-of-the-art antennas deliver exceptional reliability and tracking even in rough seas. Sophisticated software provides versatile data controls and management. Plus, the TracPhone V11<sub>HTS</sub> has a unique dual Ku/C-band design with automatic switching to deliver expanded global coverage, including Northern and Southern latitudes, and superior connectivity, even in extreme weather.

### The Power of One<sup>®</sup>

With 24/7/365 support in more than 4,000 ports worldwide and the industry's most flexible airtime plans, TracPhone HTS systems are part of KVH's seamlessly integrated marine communications end-to-end solution, which makes your time onboard more enjoyable and worry-free than ever before. **That's the KVH Advantage.**

## The most advanced maritime network available

Our HTS network offers critical advantages for you, your guests, and your crew, including:

**The most advanced managed HTS network** with 276 million sq km (more than 106 million sq miles) of KVH's industry-leading Ku-band VSAT coverage, plus C-band coverage with the TracPhone V11<sub>HTS</sub>

**A high-speed global network** that delivers speeds as fast as 20/3 Mbps (down/up)<sup>1</sup> using the TracPhone V11<sub>HTS</sub>, 10/3 Mbps<sup>1</sup> with the TracPhone V7<sub>HTS</sub>, and 6/2 Mbps<sup>1</sup> using the TracPhone V30

**Multi-level Cybersecurity Program**, including advanced network-level firewall with automated threat management to provide additional security

**Greater resilience to weather and rain fade** than Ka-band services, so you are connected when you need it most

**Crystal-clear, prioritized VoIP service** for exceptional call quality; all systems also support Wi-Fi Calling via compatible cell phones<sup>3</sup>

**Automatic, fast switching** among the network's redundant beams, ensuring seamless and reliable communications wherever you travel

<sup>1</sup>Data rates are rate plan maximums and may vary in different regions and under different conditions <sup>2</sup>Euroconsult, Prospects for Maritime SATCOM, 2021, market share VSAT units

<sup>3</sup>Requires Wi-Fi Calling support via your cell phone service provider

*"We are very dependent upon the KVH TracPhone V7HTS Ku-band antenna with the worldwide mini-VSAT Broadband HTS network. We use it for 24/7 data communications and it also gives me a phone number with a Seattle area code. It would be very difficult to do this trip without the TracPhone. It's been a real enabler for us."*

J. Hamilton, M/V Dirona

### Exclusive to the TracPhone V7HTS & TracPhone V11HTS: Dual channels, one powerful solution

Get the speed and control your adventures require with KVH's exclusive dual-channel configuration that offers both a high-speed and an unlimited use data channel through unique hybrid airtime plans ideally suited to the needs of everyone onboard.

## TracPhone V30 with new VSAT-Hub belowdecks unit

VSAT at sea has never been easier or more affordable. TracPhone V30 keeps you connected with worldwide coverage and a choice of unlimited use or metered airtime plans at a breakthrough price for VSAT. Ideal for smaller boats or as a VSAT backup for superyachts, this 37 cm digital VSAT system delivers high-speed connectivity, outstanding reception, and high-performance tracking. Plus, its single-cable, DC-powered design makes TracPhone V30 easy and fast to install. Live, work, and relax...just like home. *Need an ultra-compact SATCOM system with expanded network management capabilities?*

Check out the award-winning TracPhone V3HTS [kvh.com/v3hts](http://kvh.com/v3hts)

The world's fastest, lightest ultra-compact marine VSAT

37 cm Ku-band antenna  
6/2 Mbps (down/up)

### High-speed Channel

*Plans as fast as 20/3 Mbps down/up*

- ▶ Simple tools to control data usage
- ▶ All plans offer fastest network speeds
- ▶ Ideal for: videoconferencing, video chat (e.g., WhatsApp™ or Skype®), telemedicine, web browsing, security cameras, on-demand file transmission, video & music streaming, allocated crew usage

### Unlimited Use Channel

*Plans as fast as 8/2 Mbps down/up*

- ▶ Speed-based plans to fit every need
- ▶ Fixed monthly price – no overage
- ▶ Ideal for: IoT data transfer, email, software updates, instant messaging (e.g., WhatsApp), automated file transmission, social media, weather updates, VPN, unallocated crew usage

Use BOTH to deliver the best experience for you, your guests, and yacht operations!

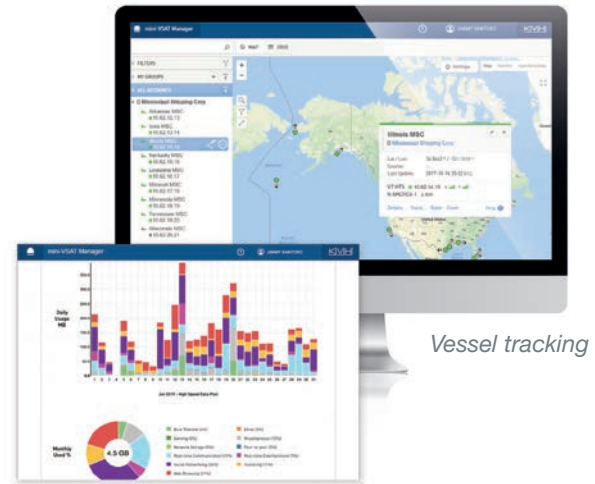

## Creating confidence through control

Enjoy complete visibility of and control over operational and personal data usage thanks to the secure myKVH™ portal and the mini-VSAT Manager suite of tools:

- ▶ View data consumption in real time and access daily and monthly data usage reports
- ▶ Ensure that your data is being used for the activities most important to you. The exclusive Category Control tool lets you “allow,” “restrict” or “block” data usage in 11 application category groups, including background data applications to limit unintended data use, on both the high-speed and unlimited use channels.
- ▶ Assign daily/weekly/monthly data allowances to help you, your guests, and your crew to stay within your monthly data plan
- ▶ Set up and receive usage alerts to stay up to date on your monthly data consumption
- ▶ See real-time vessel tracking with up to one year of position data

*TracPhone V30 offers access to the new KVH Manager suite of tools; features may vary*

View detailed data reports and manage how your data is used by application category

## The engine that drives it all

The Integrated CommBox™ Modem (ICM) with its high-throughput modem, Voice over IP (VoIP) adapter, versatile CommBox network management software, and built-in Wi-Fi and Ethernet, is the streamlined all-in-one belowdecks unit that drives the TracPhone V7HTS and V11HTS. Its easy-to-use interface allows you to easily operate and configure your system.

## Superior performance via KVH IoT Proactive Monitoring

Every TracPhone HTS network-compatible system reports daily on 150+ performance and health parameters to help optimize your system's performance for a premium connectivity experience.

*“We were in Fiji, so when my ETO came to me to explain the problem my heart sank, as we were so close to departing to pick up the owner of the yacht. When I heard that a new KVH antenna and an engineer was on the way, I could hardly believe it. In over twenty years working aboard superyachts, this has to be the best and most impressive service that I have ever received.”*

G. Newton, S/Y Hetarios

*“I have logged more than 300,000 ocean miles in my career, always with KVH products on board and KVH support on call. The clients I represent also demand the best and fair value. That's why KVH and its systems and services are a perfect match for us.*

*“The new TracPhone V7HTS delivers great data speed and we enjoy outstanding TV entertainment thanks to TracVision. Through it all, KVH and its team have kept its personal connection, outstanding support attitude, and innovative technologies, making our choice of KVH a win-win for all!”*

T. Laughridge, M/V Lady Victoria

## Protect your investment with KVH OneCare™

Our global support program protects your VSAT investment and helps you minimize your costs. KVH OneCare offers a comprehensive service offering, including:

- ▶ Application Engineering, Solution Deployment, and Operating Support for the life of your product
- ▶ A 2-year parts and labor warranty along with the option for extended warranty coverage for an additional 3 years
- ▶ Support in 4,000 ports worldwide

# Bring the best onboard with KVH

The results speak for themselves. In any harbor, anywhere around the world, you'll see KVH's distinctive white antennas with gray baseplates. With more than 200,000 mobile antennas fielded worldwide, KVH has supplied more satellite communications and TV antenna systems for mobile applications than any other manufacturer. **When you choose KVH, you choose the best!**

## TracPhone V7HTS/V11HTS Coverage<sup>4</sup>

-  Combined Ku- and C-band Coverage
-  C-band Coverage Only (TracPhone V11HTS)
-  Ku-band Coverage Only

<sup>4</sup>The map depicts KVH's expectations for the mini-VSAT Broadband HTS network's coverage. For the most up-to-date coverage maps, visit [kvh.com/htscoverage](http://kvh.com/htscoverage).

Actual coverage and availability may vary. Data rates may also vary in different regions. KVH provides no guarantees of satellite coverage or availability.

| Model            | Speed               | Size  | Network/band | Belowdecks Unit  | Model Number |
|------------------|---------------------|-------|--------------|------------------|--------------|
| TracPhone V11HTS | 20/3 Mbps (down/up) | 1.1 m | Ku/C-band    | ICM <sup>5</sup> | 01-0415-11   |
| TracPhone V7HTS  | 10/3 Mbps (down/up) | 60 cm | Ku-band      | ICM              | 01-0408-15   |
| TracPhone V3HTS  | 6/2 Mbps (down/up)  | 37 cm | Ku-band      | ICM              | 01-0418-11   |
| TracPhone V30    | 6/2 Mbps (down/up)  | 37 cm | Ku-band      | VSAT-Hub         | 01-0432-01   |
