1. WELCOME

Today's wireless devices provide more options for staying in touch with friends and family than ever before. Unfortunately, they are dependent on wireless networks. Now you can take your computer beyond wireless with the world's most reliable satellite hotspot.

- Easily send and receive email via Wi-Fi enabled computer
- Conveniently use existing device contacts via the Sat-Fi App
- Fastest data speeds in the industry for sending and receiving email
- Designed for both vehicle/vessel-based and fixed locations
- Connect up to 8 users to Sat-Fi at one time
- Powered by the world's newest, most modern satellite network

Sat-Fi turns your computer device into a satellite enabled device

- 1. Download and install Sat-Fi for Mac to your computer
- 2. Connect your computer to the Sat-Fi via a Wi-Fi connection.
- 3. Sat-Fi links your computer to the Globalstar Satellite Network.
- 4. Your computer is now a connected for email and data.

2. INSTALLING THE SAT-FI APP

You will be able to send and receive email and data via the Sat-Fi App. The Sat-Fi App can be found on the Globalstar Sat-Fi Support Page.

Perform the following to download and install the Sat-Fi App for Mac:

- Step 1 On a Mac computer connected to the Internet, proceed to the <u>Globalstar Sat-Fi support</u> <u>Page</u> and download the Sat-Fi App for Mac.
- Step 2 Install the Sat-Fi App for Mac on your Mac computer.

3. ACTIVATING THE SAT-FI APPS

Sat-Fi Data Access Vouchers

You must have a Data Access Voucher to send and receive email & data via the Sat-Fi App.

Your Sat-Fi Data Access Voucher was issued to you at the time of purchase from the dealer

New Sat-Fi Account

You must have a connection to the Internet to activate your Sat-Fi App for Mac. Perform the following to activate the Sat-Fi App for Mac:

Step 1 Open the Sat-Fi App for Mac and an Activation Wizard screen will be displayed. Select New Account Using Activation Code and click on Next>.

- Step 2 A How do you want to connect to the Internet screen will be displayed asking you "How do you want to connect to the Internet?" Perform the following:
 - Click on the Connection Method drop-down arrow and select *Network* Connection
 - Click on Next>

- **Step 3** A Registration Notice screen will be displayed. Perform the following:
 - Click on the *I have read and agree to the license term and conditions* checkbox
 - Click on **OK**

e O O Registration Notice
If you have already registered with Globalstar for E-Mail service and received a user logon id and password from them then hit CANCEL and enter this information in the Account Information dialog under the E-Mail Cateway tab accessed through the Options/Settings menu selection.
You can register this product through one of the following methods:
 Configure your Connection Information under the Connection tab accessed through the Options->Settings menu for Windows/Linux or Preferences for Mac OS X, then select "Registration Wizard" from the Program menu.
2. On line at http://www.globalstar.com
3. By phone at +1.985.327.7500
Thank you for choosing Sat-Fl.

- In the Alternate User Id field, enter another username just in case your preferred choice has been taken (username must be between 3 and 16 characters)
- In the **Account Password** field, enter the password you would like to login with (password must be between 6 and 16 characters)
- Click on Activate

Step 5 A Your activation has succeeded message will be displayed with the following information:

- Your email address (example: jsmith@globalstarmail.com)
- Your username (example: jsmith)
- Your password (example: Gl0bal*)

Additionally, you will receive an email (delivered to your contact email address) with this product registration information.

Step 6 Click on OK.

- Step 7 A Registration Complete screen will be displayed. Click on Finish.
- Note: It may take up to 20 minutes to activate in the system.

Existing Sat-Fi Account

You must have a connection to the Internet to complete the registration of your Sat-Fi App for Mac If you have an existing Sat-Fi account on a smartphone or other wireless device, you can login using your account information. Perform the following:

Step 1 After your computer has rebooted, the Activation Wizard will be displayed. Select Enter User ID and Password and click on Next>.

- Step 2 A screen will be displayed asking you "How do you want to connect to the Internet?" Perform the following:
 - Click on the Connection Method drop-down arrow and select *Network Connection* —
 - Click on Next> -

- Step 3 An Account Information screen will be displayed. Perform the following:
 - In the **Real Full Name** field, enter your first and last name
 - In Assigned User Name field, enter the user name you selected when activating the Sat-Fi App
 - In the **Password** field, enter the password you selected when activating the Sat-Fi App
 - Click the **OK** button.

Step 3 The LED Status Indicator will start blinking (Slow Blink) indicating that your data session is being initiated. Within a few seconds any email waiting to be received will be delivered.

Step 4 The Mail Transfer Status bar will also turn green showing the transfer progress and the connection information will be displayed in the Log section.

8. INCREASING/DECREASING EMAIL LIMIT SIZE

The default inbound and email message size is 50kb and outbound email message size is 250kb. With the default settings, incoming email equal to or less than 50kb will be downloaded to your Inbox whenever you receive email. Any incoming email greater than 50kb will be held on the server and reported to you in the Big Mail folder. Any outgoing email greater than 250kb will trigger a rejection email message that will appear in your Inbox.

Inbound and Outbound email sizes can be increased or decreased by performing the following:

Step 1 On the Sat-Fi screen, select Filters > Configure	Sat-Fi Program Options Tools Filters View Help Start Sat-Fi Sat-Fi Sonfigure Manage Big Mail Sat-Fi S
	Mail Transfer Status: Send: Receive: Log:

9. SOCIAL MEDIA

Facebook

Sat-Fi for Mac allows you to post pictures and captions to Facebook. A Facebook Post-By Email Address is required to send Facebook post through Sat-Fi. If you already have a Facebook account that includes a Post-By-Email Address, proceed to Configuring the Sat-Fi App for Facebook.

Setting Up Your Facebook Post-By-Email Address

If you do not have a Post-By-Email Address assigned to you by Facebook perform the following:

Step 1 On a computer connected to the Internet, login to your Facebook account.

Step 2 On the Home Page select **Settings** from the drop-down menu.

Step 5 The Sat-Fi LED Status Indicator will start blinking (Slow Blink) indicating that a data session is being initiated. Within a few seconds your Facebook post will be sent and any email waiting to be received will be delivered.

10. WEB BROWSING WITH COMPRESSION

Sat-Fi employs a web compression agent that allows you to browse the Internet. Web content is compressed, background images are stripped, pop-up ads are removed, advertisements are stripped, animations are removed, and images are compressed.

Sat-Fi can reduce the time it takes to download typical web pages up to a factor of 10x. However, even with compression, Internet browsing will be slow.

Configuring SAT-Fi for Web Browsing

Perform the following to configure Sat-Fi for web browsing:

NOTE: Sat-Fi defaults to Firefox as its web browser.

- Step 4 In the Compression Level section select the appropriate compression level; the higher the compression level, the lower the quality.
 - **Maximum** Low image quality with fast speed
 - Standard Medium image quality with good speed
 - **Minimum** Better image quality with slower speed
 - None Best image quality with slowest speed

Step 5 When finished click OK.
