FOR ISATPHONE

# SSA PREPAY VOUCHERS

## MOBILE CONNECTIVITY IN SUB SAHARAN AFRICA

In our ever-connected world, there are still places around the globe, where there are no means of communication other than via satellite. Sub Saharan Africa is one of those regions.

Research done by GSMA indicates that in 2020, whilst 93% of the global population is covered by a mobile broadband signal, only 75% of Sub Saharan Africa has access to 3G connectivity and just 49% has 4G coverage.

Although broadband coverage has seen improvements over the last few years, one in four people in the region are still not covered by any mobile broadband signal.

These connectivity issues have driven the use of satellite telephones, which have become a lot more affordable, and no longer just the domain of only large corporate users or governments.

To maximise the affordability of satellite phones, we now offer calls and text messages using GSPS connectivity at rates that are more competitive than ever in the Sub Saharan region.

## AFFORDABLE AND FLEXIBLE

Our new Sub Saharan Africa prepay vouchers for IsatPhone give you the flexibility to pay only for the minutes you use, without having to pay any set-up fee or even monthly charges. And our price per minute is less than the cost of roaming on a foreign mobile phone network.

You can choose a prepay voucher to suit your needs, whether you only make a few calls per month or use the phone daily, and no matter which country you're in.

The Sub Saharan Africa prepay vouchers for IsatPhone are available in 20, 33 or 67 minutes blocks and they are valid for between 30 and 90 days upon activation.

The Sub Saharan Africa prepay vouchers for IsatPhone are accessed through our IsatPhone 2, which operates over our global I-4 satellite network, offering up to 99.9% uptime.

VOUCHER NAME	UNITS	# MINUTES*	BALANCE EXPIRY
SSA GSPS 00030	30	20	30 DAYS
SSA GSPS 00050	50	33	30 DAYS
